

Partnership with HKFYG can be your foundation stone of corporate social responsibility. Your **sponsorship** means we make our programmes and services more relevant. We reach out further into the community and support more young people in need. Virtually all our events and programmes need partners and they come from every sector.

Our partnership can be one of ideas, skills, **mentoring** and expertise. Other ways of **getting involved** are to volunteer, give us advice or be a judge at our competitions. **Employers** work with us at job expos, offer placements and join the Youth Employment Network.

Some of our greatest help comes from individuals who feel strongly about young people. Perhaps they coped with challenges themselves when they were growing up. Maybe they feel exceptionally privileged and want to give back some of what they have gained.

An example of large partnership programme is the *Heart to Heart Project* which matches donor companies and corporate volunteers with schools to organise community service projects for youth. Another deserving cause is *Youth Business Hong Kong* which supports young start-ups with loans, professional expertise and networks.

There are many more projects and programmes we would like to tell you about. Whatever motivates you to help us, whether it leads you to sponsor a project or help us distribute appeal leaflets for underprivileged youngsters, whether you want to be a mentor for a young entrepreneur or a mature volunteer on outings for the needy, the rewards are great.

Call and talk to us about it. Bonnie is always ready to listen, tel 3755 7101
